

TECHNICAL **CHART 42-02**

TONER LIME CONCRETE

Description of product

"Toner powder" of pigments, natural lime, hydraulic binders and marble fillers.
Suitable for coloring wall concrete.

Application field

"Lime Concrete" coloring.

Product characteristics

TONER LIME CONCRETE is a toner powder suitable for coloring the product "Lime Concrete".

Having the toner the same composition as "Lime Concrete", it is possible to add as many toner as you want, to obtain darker greys.

We suggest to add toners when the product is still in powder and mix with a mechanical drill.

In this way we guarantee a better tint production.

Technical data	
Name	Toner Lime Concrete
Composition	Pigments, lime, hydraulic binders, natural fillers, resins.
Aspect	Powder
Color	Dark grey
Dilution	Water
Quantity per layer	-
PH	13 in water solution
